Education

B.Sc. in Computer Science
2012-04-01 ~ 2016-03-31
Tech University

Work Experiences

Software Engineer
Company: Tech Corp Ltd. | Timeline : 2017-04-01 ~ 2020-03-31
Worked on web applications, mobile app development and microservices

Projects

Portfolio Website
Role: Full-stack Developer | Timeline : 2020-01-01 ~ 2020-06-01
Rails, TailwindCSS, PostgreSQL
A personal portfolio showcasing all my projects and skills. I used rails and tailwind CSS to build this project. I worked as a full-stack developer and also wrote some test cases.

E-commerce Platform
Role: Backend Developer | Timeline : 2021-03-01 ~ 2021-09-01
Ruby on Rails, MySQL, Stripe API
An online shop with payment integration. We had a very tight schedule to complete the project and with our hardworks and team effort we completed it successfully within the given time. In this project I worked as a Backend Developer.

Another E-commerce Platform
Role: Backend Developer | Timeline : 2022-03-01 ~ 2022-09-01
Ruby on Rails, MySQL, Stripe API
This is another online shop with payment integration. We had a very tight schedule to complete the project and with our hardworks and team effort we completed it successfully within the given time. In this project I worked as a Backend Developer.

Mobile Chat App
Role: iOS Developer | Timeline : 2022-05-01 ~ 2022-12-01
Swift, Firebase, WebSockets
This is a Cross-platform chat app with real-time messaging. Users can create their account, do the chatting with their contacts and send images and videos. My role for this project is iOS developer.
